1. The reciprocal recognition of APEC Architect should be
Comprehensive Registration Examination
devided into two level, the recognition of professional qualification of architect and the practice licence. The APEC Architects registration criteria could be taken as the standard and condition of professional qualification recognition. But the practice licence should be discussed by bi-literal negotiation and solved under peer to peer conditions.

2. According to the realistic conditions in China, it is better for developing the mutual recognition and practice activities by domain specific assessment as well as local collaboration. After the overseas architects acquired the experience in a certain period in China, satisfying some conditions, then he or she could practice independently.
